Pulse Secure Appliance, Support & Licenses

Equivalent items may be bid; however, all equivalent item bids **MUST** include documentation to prove equivalency. The final decision on equivalency will be determined by the requesting Department.

The State of Maine, Office of Information Technology (OIT), has chosen Pulse Secure as its Remote Access and Mobility solution for the access to and protection of the State of Maine's distributed voice and data network infrastructure. OIT uses Pulse Secure Appliances and has built its remote access service procedures around this line of products.

The purpose of this Request for Quotes is to select a vendor to supply Pulse Secure appliances, software licenses, maintenance and support, consulting and training for a period of five (5) years. The State is soliciting quotes to get best equipment and support prices, using global discount level pricing, for Pulse Secure products. Responding Bidders must be a Pulse Secure Premier Partner and participate in the Pulse Partner Branded Support (PAR) program. The winning Bidder will serve as help desk for problem tickets, solving issues, and may escalate issues as needed to Pulse for resolution. The State of Maine will contact the winning Bidder, not Pulse Secure, for support. A vendor who only resells Pulse Secure products and does not provide Pulse Secure subject matter expert troubleshooting (PAR) service and consulting will not be considered. The State of Maine does not seek and will not consider proposals offering other equipment and services.

Vendor staff may come into contact with confidential information whether in paper, on worker screens or equipment logs, etc. Vendor and vendor personnel shall not disclose such information.

Terms:

- Bidder must be a Pulse Secure Premier Partner and participate in Pulse Partner Branded Support;
- Bidder must provide a certificate/proof that they are a Pulse Secure Premier Partner and Partner Branded Support;
- The State reserves the right to use the NASPO Value Point Participating Agreement if one is initiated in the future and pricing is better through that channel;
- Equipment or parts to be delivered within 14 business days from the receipt of an order;
- All shipping and handling costs for delivery to Augusta, Maine must be included at no additional cost;
- Payment for equipment, parts, etc. after delivery of service/items to the State per standard terms;

- All equipment purchases, consulting and training costs will be paid for at time of delivery. Maintenance and support fees will be paid annually, e.g., five (5) annual payments at the beginning of each service year for a five (5) year support plan;
- Award will be in the form of a Master Agreement and the contract will be for five (5) years.

Bid Cost Format

- (1) Bidder must specify their global discount as a percentage off manufacturer's suggested retail price; (MSRP) for Pulse Secure complete line of equipment and support
- (2) Bidder must complete tables A, B, C below and submit with the bid response;
- (3) Bidder must provide a quote consistent with the chart;
- (4) Bidder shall provide proof of being a Pulse Secure Premier Partner and Partner Branded Support;
- (5) Bidder shall outline:
 - a. How their support/help desk operates for Pulse Partner Branded Support
 - b. What consulting services are available.
 - c. How they will provide training.

OIT has selected some of the more commonly installed products as a basis for evaluating the bids. OIT is not ordering this equipment now but, is selecting a vendor to supply equipment and support over five (5) years. OIT may order other Pulse Secure equipment not quoted below under the resulting Master Agreement based on its technical requirements.
