

LEASE EXPANSION APPLICATION

1. APPLICANT CONTACT INFORMATION

Acronym of Lease Proposed for Expansion	WES BC
Applicant	KRISTIA TRIPP
Contact Person	KRISTIA TRIPP
Address	3 POWDER HOUSE COVE RD.
City	SOUTH THOMASTON
State, Zip	MAINE, 04858
County	KNOX
Telephone	(207) 542-0121
Email	krtripp08@yahoo.com

Note: If applicant is a corporation or a partnership, please complete the "Corporate Applicant Information Document" available at: <http://www.maine.gov/dmr/aquaculture/forms/experimental.html>

2. PROPOSED LEASE SITE INFORMATION

Acreage of Existing Lease	0.967
Acreage of proposed expansion (up to 25% of existing lease or 4 acres, whichever is less)	0.2225
Town	SOUTH THOMASTON
County	KNOX
Waterbody	WESKEAG RIVER
Type of Culture Proposed for Expansion	<input type="checkbox"/> Bottom (no gear) <input checked="" type="checkbox"/> Suspended (gear in the water and/or on the bottom)
Would your proposed expansion discharge anything into the water such as feed or additives?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Note: If you checked yes, you will need to contact the Maine Department of Environmental Protection (DEP) Wastewater Licensing Program (Gregg.wood@maine.gov , 207-287-7693). Further sampling may be required by DMR, or DEP, depending on the characteristics of the site or the proposed activities.
Is any portion of the proposed expansion above mean low water?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Note: If you selected yes, please complete the permission requirements included in section "15. Landowner/Municipal Permission Requirements".

3. VICINITY MAP

Directions: Using a NOAA Chart or USGS topographic map, show the area within a minimum of one-half mile of the existing lease site and proposed expansion. **Note:** Please label as: 'Vicinity Map'.

The map needs to display the following:

- The waters, shore lands, and lines of mean high and mean low water within the general area of the lease
- An arrow indicating true north
- A scale bar
- The existing lease boundaries
- The proposed expansion

4. BOUNDARY DRAWING

Directions: Depict the boundaries of the existing lease site and proposed expansion. Label all corners, directions, and distances. **Note:** Please label as: 'Boundary Drawing'.

5. COORDINATE DESCRIPTION

Directions: Provide geographic coordinates for each corner of your expanded lease proposal. If you use a datum other than WGS84 or NAD83 for your expanded coordinates, please include the datum used.

Note: Please label as: 'Expanded Coordinates'.

6. SITE DEVELOPMENT

Directions: If your operations require the use of cages, nets, ropes, trays, or any object (structure) other than the organism to be grown directly on the bottom or buoys to mark the corners of the lease site, you must submit gear drawings and maximum structure schematics (information below). This section is intended to provide accurate plans depicting the physical structures to be placed in the proposed area. All dimensions need to be labeled with the appropriate units (i.e. 10ft, 10in). If you are proposing a bottom lease (no gear), please skip to question “G. Marking”.

Note: You may embed the schematics within the document, or attach them to the end of your application. If you attach the schematics, please label them according to the instructions provided below.

A. Maximum Structure and Mooring System Schematic

Directions: Include drawings of your **maximum gear layout**. Include units referenced (i.e. 10in, 10ft, etc.).

- ✓ 1. Overhead View. Please include the following and label as “Overhead View”:
 - Maximum layout of gear on entirety of expanded site, including moorings.
 - Length and width of project.
 - Approximate spacing between gear.
 - Proposed expansion boundaries and the location of proposed corner markers and any additional gear markers that would be present.

- ✓ 2. Cross Section View: Please include the following and label as “Cross-Section View”:
 - Profile of gear cross-section as it will be deployed in the proposed expansion
 - The sea bottom
 - Label gear with dimensions and materials
 - Show mooring gear with mooring type, scope, hardware, and line type and size
 - Depths from structure(s) to sea-floor relative to mean low water and mean high water (if applicable).

Note: Please include an additional Cross-Section View, depicting the elements listed above, if there will be seasonal changes to the proposed gear type(s) (i.e. overwintering).

B. Gear Information

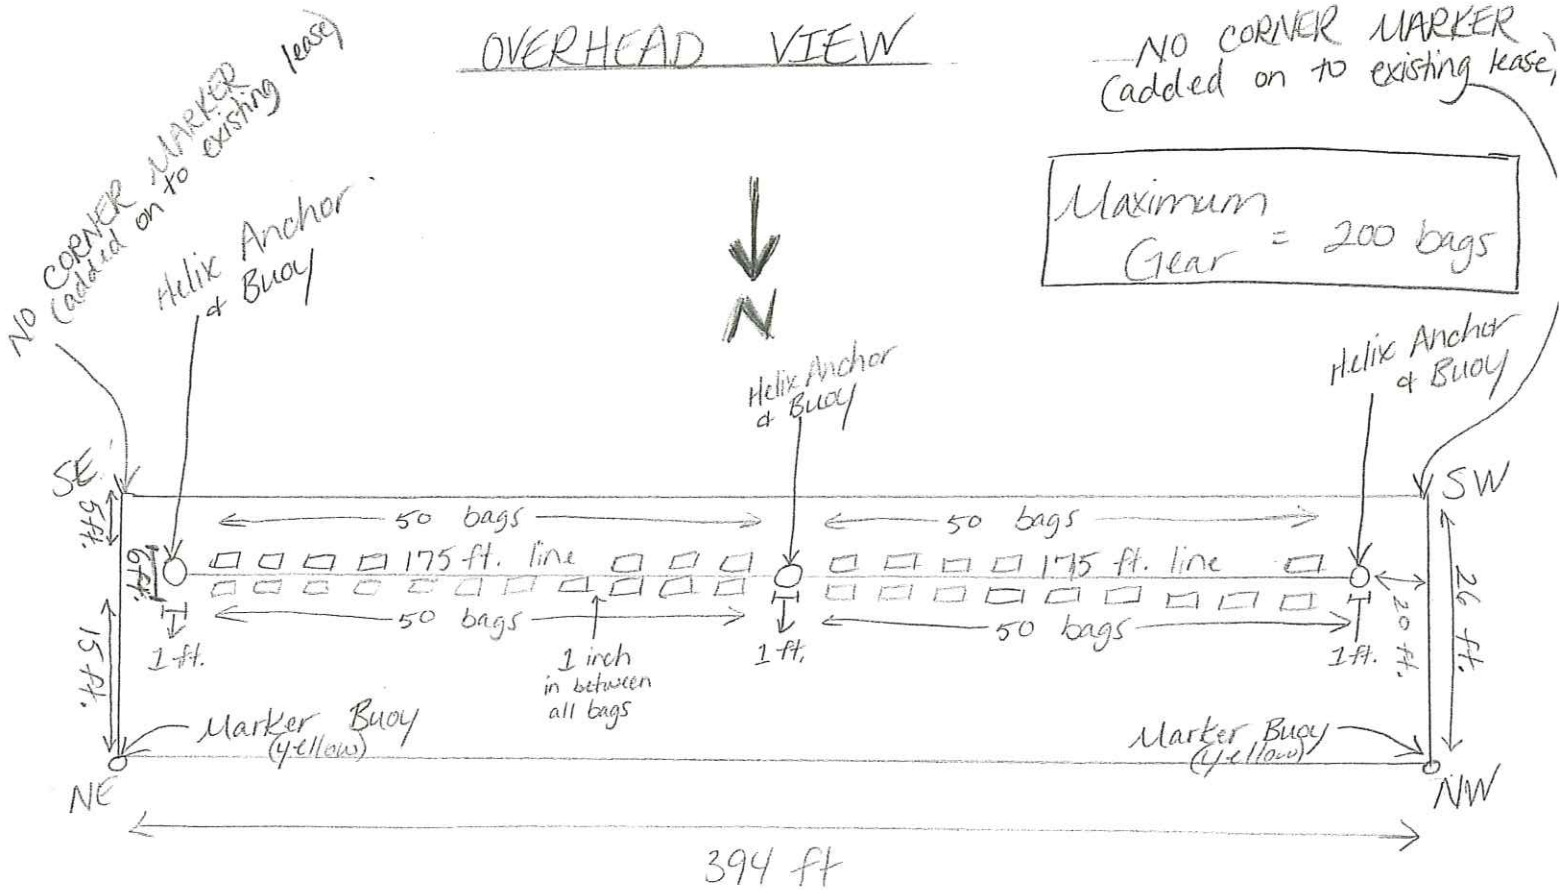

Directions: Please include a drawing of an individual piece of gear for each gear type you plan to use on your proposed expansion.

- ✓ 1. Gear Drawing: Please include the following for each gear type (e.g. Polar circles, marine algae longline, oyster cages) to be used and label as “New Gear Drawing”. This view must show the following:
 - Length, width, and height of each gear type.
 - Color of proposed gear.

OVERHEAD VIEW

NO CORNER MARKER
(added on to existing lease)

Maximum
Gear = 200 bags

- * SW = $44^{\circ}02'22.690''$ N / $69^{\circ}07'40.144''$ W * (this point is the NW point on existing lease)
- * SE = $44^{\circ}02'22.522''$ N / $69^{\circ}07'35.657''$ W * (this point is the NE point on existing lease)
- NE = 44.039184 | -69.126499
- NW = 44.039758 | -69.127681

I will add corner marking buoys to the NW+NE points. There will be 2 lines, 175 ft. in length, containing 50 trays (bags) on each side of the lines. There will be 3 Helix anchors; one on each end of the 175 ft. lines and then one in the middle, connecting the lines together (to make a 350-ft. line, containing a total of 200 bags. There will be a 20-ft. sway allowance in between the 2 lines in TRACT #1 of my existing lease because there is already a 15 ft. allowance of sway from the existing line to the edge of the lease boundary. There will be a 15 ft. sway allowance from this additional line to the lease boundary. pg. 3A

CROSS SECTION VIEW

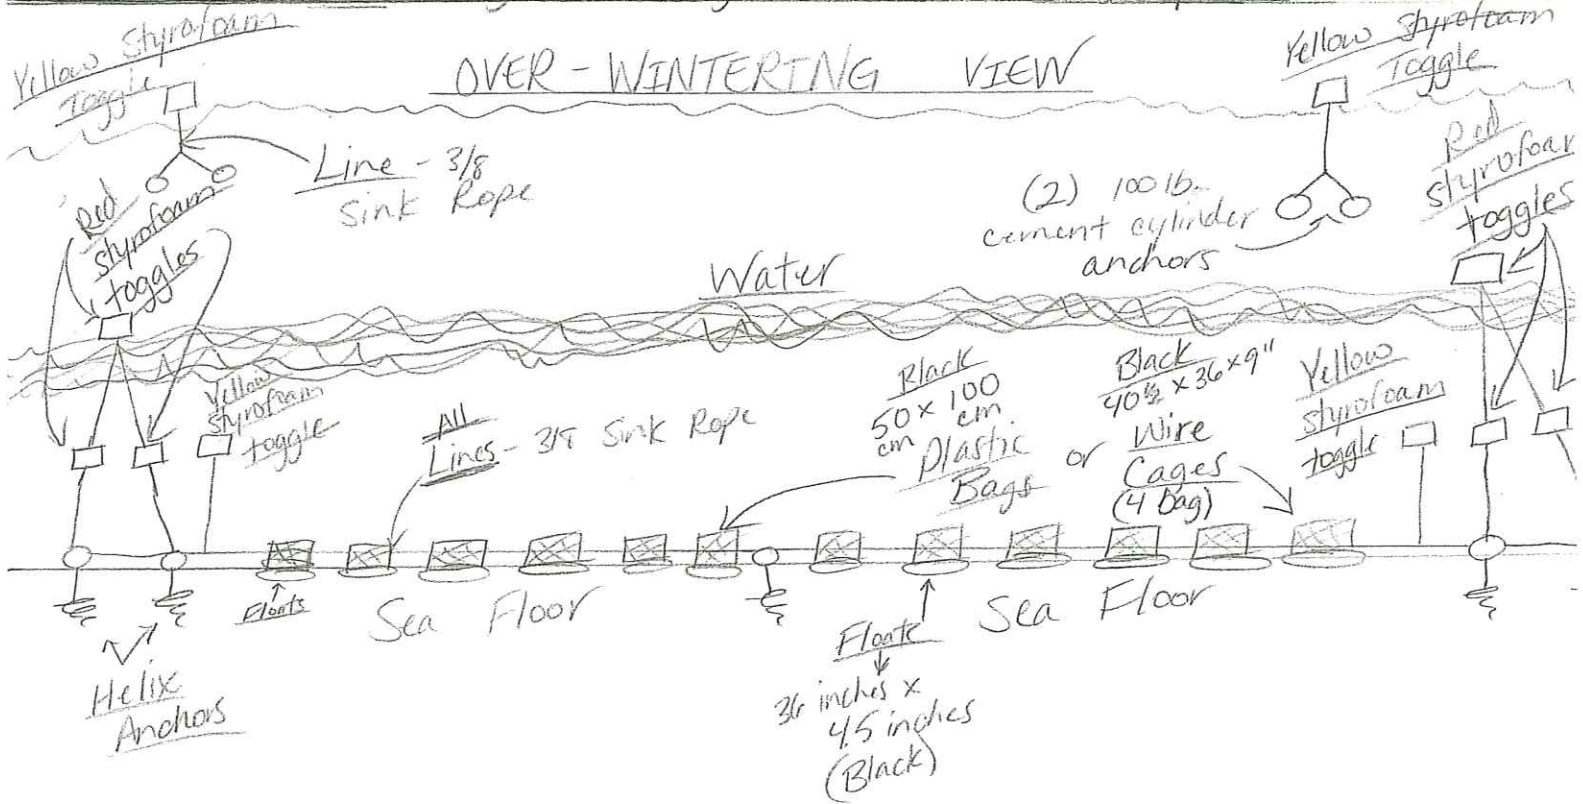

Helix Anchors are solid steel 4 ft. long, 1 inch shaft, + 8 inch disks

MLW = 6 ft.
MHW = 18 ft.

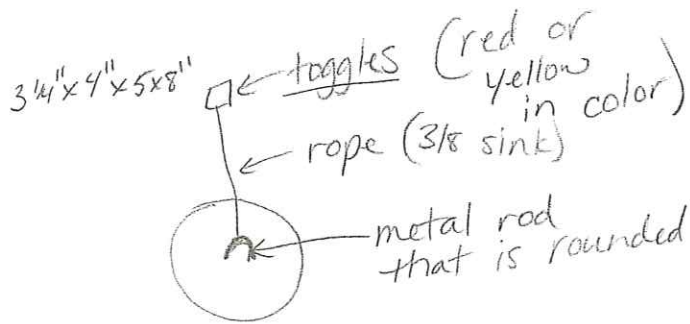

* Bags or Cages will Float on top of water.

OVER - WINTERING VIEW

* Bags or Cages will rest on the sea floor.

NEW GEAR DRAWING

100 lb. cement anchors (grey)
 (made with 5 gallon buckets)

Inflatable
 Marine
 Grade
 Vinyl

Polyform -
 14.5" diameter x 19.5" length

Corner Marking Buoy

*Note! We may use different sized floats/pontoon on the cages to make the height smaller.

Wire Cages

4-bag Oyster Ranch

Plastic Floats for Oyster Bags

(in addition to the original styrofoam floats on some bags and other original plastic floats on some bags)

40 1/2" L x 36" W x 9" H (pontoon)

Wire - 8 gauge
 4 1/2" x 4 1/2" vinyl-coated (Blk)

C. On-Site Support Structures

1. Describe structures such as barges, sheds, etc., to be located on the proposed expansion. Provide a schematic and indicate the dimensions, including height above sea level, materials, etc.

No additional structures

2. Describe the storage and use of oil, gasoline or other hazardous material on this expansion. If you did not provide a spill prevention plan in your initial application, please do so here.

*No storage of hazardous material
on this expansion*

Note: If a lease expansion is granted, you will also be required to mark the site in accordance with appropriate US Coast Guard Regulations. If you have questions about US Coast Guard regulations contact: 1st Coast Guard District, Aids to Navigation Office ((617)-223-3293).

7. PRODUCTION ACTIVITIES

Directions: If you are cultivating more than one species, you will need to provide information for each species. Please attach additional pages if needed.

A. Please describe how the proposed expansion activities would affect your current operations (seeding, harvesting, tending, maintenance, etc.).

The expansion will be used for just one more additional line on our lease. We will be doing routine maintenance and tending on this line. We may use this line for seed but it's not likely. We may harvest from this line, during appropriate harvesting months for our lease site.

8. NOISE AND LIGHT

A. Please describe how the proposed expansion activities would affect the noise and light emitted from your current lease.

There will be no additional noise or light.

9. ENVIRONMENTAL CHARACTERIZATION

Directions: Using your knowledge of the area, describe the environment of the proposed expansion. Be sure to include units of measurement in your answers (i.e. feet, cm/s).

A. What are the approximate depths at mean low water within the proposed expansion?

The approximate depths at MLW is about 6 ft.

B. What are the approximate depths at mean high water within the proposed expansion?

The approximate depths at MHW is about 18 ft.

C. What are the bottom characteristics within the proposed expansion (mud, sand, gravel, rock, ledge or some mix, etc.)?

The bottom is all mud.

D. Describe the bottom topography (flat, steep rough, etc.).

The bottom is flat.

E. Describe marine organisms within the expansion by species or common names. Based on your personal observations or other sources of information, are these species abundant, common, or rare?

The marine organisms are green crab ~~abundant~~ (common), algae, lobsters ~~abundant~~ (common), and ~~abundant~~ (occasional) urchins.

F. Describe the presence and extent of submerged aquatic vegetation, i.e. eelgrass, within the proposed lease area. Please include the date of this observation along with the method of observation. If submerged aquatic vegetation is observed, please also describe the abundance below and sketch the limits of the beds in the vicinity map.

There is no eelgrass within or around the proposed lease area. This was observed throughout the year 2021, on foot and within a row boat at low-tide.

G. Is your proposed lease located within a Maine Department of Inland Fisheries and Wildlife designated Essential Habitat?

Yes No

10. EXISTING USES

A. Describe the existing uses of the proposed expansion (i.e. fishing, sailing, etc.).

There are people who occasionally kayak in the area. There is a nearby navigational channel that is used by lobsterboats or people fishing but it is far enough away from the addition to the lease to not be an issue.

B. Describe any effects your proposed expansion might have on existing uses of the area.

The proposed expansion should have no effects on the existing uses of the area.

11. EXCLUSIVE USE

If your lease expansion is granted, what activities would you request be excluded from occurring within the boundaries of the expansion? In your answer please address applicable uses of the area described above.

I only request that there be no dragging of any kind within the boundaries of my lease because we plan on sinking oysters for the winter on some of our lines within the lease.

12. RIPARIAN LANDOWNERS AND SITE ACCESS

Is your existing lease or proposed expansion within 1,000ft of shorefront land (which extends to mean low water or 1,650 ft. from shore, whichever is less)?

Yes No

If yes, the following supporting documents are required:

A. Tax Map.

A labeled copy of the appropriate tax map(s) depicting the location of the proposed lease site. The map(s) needs to include the following elements:

- Label the map "Tax Map: Town of (name of town)."
- Legible scale
- Tax lot numbers clearly displayed
- The boundaries of the existing lease and proposed expansion

B. Riparian List.

Please use the Riparian Landowner List (included on the next page) to list the name and address of every shorefront landowner within 1,000 feet of your existing lease and/or the proposed expansion. Have the tax collector or clerk of the municipality certify the riparian list.

Note: Once your application has been deemed complete by DMR, you will be required to send a copy of your application and notification of the 30-day comment period to all riparian property owners whose property is within 1,000 feet of your existing lease and/or the proposed expansion via certified mail. You will also need to provide this notification to the municipality in which your lease is located.

When your application has been deemed complete, DMR will establish a 30-day comment period and provide you with further guidance on how to notify riparian owners and the municipality of your proposed expansion. Do not send notification via certified mail to riparian owners or the municipality prior to receiving specific instructions from DMR.

C. Intertidal Land.

Is any portion of the proposed lease site above mean low water?

Yes No

Note: If you selected yes, please complete the permission requirements included in section "15. Landowner/Municipal Permission Requirements".

RIPARIAN LANDOWNER LIST

THIS LIST MUST BE CERTIFIED

On this list, please show the current landowners' names and mailing addresses as listed in the municipal tax records for all riparian shorefront parcels within 1,000 feet of the proposed expanded lease site along with the map and lot number for each parcel. **It is the applicant's responsibility to assemble the information for the Town Clerk to certify.** The Town Clerk only certifies that the information is correct according to the Town's records. Once you have completed the form, ask the Town Clerk to complete the certification section below. If the parcels are within more than one municipality, provide a separate, certified riparian list for each municipality.

TOWN OF: South Thomaston

13. ESCROW ACCOUNT OR PERFORMANCE BOND

Check the category that describes the entirety of your proposed expanded operation, including your original lease:

Check Here	Lease Category	Amount of Required Escrow or Performance Bond
	No gear/structure, no discharge	None
	No gear/structure, discharge	\$500.00
	≤ 400 square feet of gear/structure, no discharge	\$1,500.00
✓	>400 square feet of gear/structure, no discharge	\$5,000.00*
	Gear/Structure, discharge	\$25,000.00

*DMR may increase the bond/escrow requirements for leases with more than 2,000 square feet of structure.

Will your proposed expansion alter your current lease category?
 Yes No

Note: If yes, your current escrow account or performance bond must be amended to reflect the revised amount if your proposed expansion is issued.

I, (printed name of applicant) Krista Tripp have read DMR Aquaculture Regulations 2.40(2)(A) and if this proposed expansion is granted by DMR I will amend my current escrow account or performance bond to reflect the amount determined by the lease category.

Krista Tripp / OWNER 04/05/2022
 Applicant Signature Date

Note: Add title if signing on behalf of a corporate applicant.

ADDITIONAL APPLICANTS: Each applicant must sign this section indicating that they will amend their escrow account or obtain a performance bond if nessecary. Use the space below for additional persons listed on the application. You may attach additional pages, if necessary.

I, (printed name of applicant) Krista Tripp have read DMR Aquaculture Regulations 2.40(2)(A) and if this proposed expansion is granted by DMR I will amend my current escrow account or performance bond to reflect the amount determined by the lease category.

14. APPLICANT SIGNATURE PAGE

I hereby state that the information included in this application is true and correct. I have also read and understand the requirements of the Department's rules governing aquaculture and the application instructions pertaining to the aquaculture lease expansion process.

Printed name: Krista Tripp

Title (if corporate applicant): OWNER

Signature: Krista Tripp Date: 04/05/2022

18 U.S.C. Section 1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up any trick, scheme, or disguises a material fact or makes any false, fictitious or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious or fraudulent statements or entry, shall be fined not more than \$10,000 or imprisoned not more than five years or both.

Note:

- All applicants must sign and date this page. Please use the space below, if additional signatures are required.
- Corporate applicants, please be sure to include the title (i.e. President, Treasurer, etc.) of the individual(s) signing on the company's behalf.

ADDITIONAL APPLICANTS

Printed name: _____

Title (if corporate applicant): _____

Signature: _____ Date: _____

15. LANDOWNER/MUNICIPAL PERMISSION REQUIREMENTS (if applicable)

Directions: If any portion of the proposed expansion is intertidal you need to complete the steps outlined below.

Step I: Obtain written permission from all intertidal landowners.

Pursuant to 2.10(3)(G) the Department requires *written permission of every owner of intertidal land in, on, or over which the expanded lease activity will occur*. It is your responsibility to obtain written permission and include it with your application materials. Please note that the Department does not provide forms for landowner permission.

Step II: Determine if the municipality where your site is located has a shellfish conservation program.

Pursuant to 12 MRSA §6072(3) *In any municipality with a shellfish conservation program under section 6671, the Commissioner may not lease areas in the **intertidal zone** within the municipality without the consent of the municipal officers.*

If the municipality where the proposed lease site is located has a shellfish conservation program, it is your responsibility to obtain consent for the proposed expanded lease site from the municipal officers (i.e. the selectmen or councilors of the town, or the mayor and aldermen or councilors of a city.) Consent means a majority vote of the municipal officers as recorded in a public meeting.

It is your responsibility to contact the municipality and determine if they have a shellfish conservation program. Best practices would include discussing your plans with shellfish committee members, but only the consent of municipal officers is required.

1. Does the municipality, where the proposed site is located, have a shellfish conservation program? Yes No

If you answered yes, please attach documentation from a public meeting demonstrating that a majority of municipal officers have consented to your proposal.

* Attachment for: Bird Deterrents in accordance to the National Shellfish Sanitation Program Model Ordinance. *

I use site WES BC as a "grow site" for oysters. I relay the harvestable oysters to a different location in the river, our "purge site", to purge for 2 weeks before harvesting. The purge site consists of 3 LPA lines: KTRI119, KTRI219, and DZAI120. We do ~~not~~ not harvest our oysters from site WES BC, therefore we do not need to sink our oysters there 2 weeks before harvest.
