# **REVISED 2018 Additional Worksheet to Report Certain “Other” Modifications to Maine Income Related to Federal Tax Law Changes Enacted After December 31, 2019**

Income and deductions are generally treated the same for Maine income tax purposes as treated for federal income tax purposes. However, certain federal and state laws may require different tax treatment of some items. These differences require adjustments, or modifications, to federal income to calculate Maine taxable income. See Form 1041ME, Schedule 1. This worksheet provides additional Maine modifications required for the 2018 tax year due to Maine nonconformity with federal tax law changes enacted after December 31, 2019.

## **Income Modifications - Other Additions, Form 1041ME, Schedule 1, Line 1g**

Addition modifications are required for items of income that are not included in federal income but are subject to Maine individual income tax or to reverse a federal deduction not allowed for Maine tax purposes. See also Form 1041ME, Schedule 1, Lines 1a through 1h. See descriptions below for each item.

**Note that the modifications listed below affect only taxpayers whose taxable year began during 2018.**

**Line 1. “Total Other Additions” - Addition Modifications From the Worksheet for Schedule 1, Line 1g.** If applicable, enter the “Total Other Additions” from line 4 of the Worksheet for Form 1040ME, Schedule 1, Line 1g, Income Modifications - Other Additions.

**Lines 2 and 3 - Other Addition Modifications Resulting from Federal Tax Law Changes Enacted After December 31, 2019. Enter only amounts not included in Line 1 or otherwise previously reported on Maine Form 1041ME, Schedule 1. NOTE, EFFECTIVE MARCH 2021, LINE 3 IS REVERSED DUE TO CONFORMITY WITH THE FEDERAL INTERNAL REVENUE CODE AS AMENDED THROUGH DECEMBER 31, 2020.**

**Line 2. Excess business losses for noncorporate taxpayers.** Under the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act, the effective date for the limitation on noncorporate excess business losses was deferred to tax years beginning after December 31, 2020. For Maine income tax purposes, an adjustment must be made to reverse the effect of noncorporate excess business losses used to reduce federal taxable income. To calculate the amount to enter on this line, complete a pro forma federal Form 461. Enter on this line the amount from your pro forma federal Form 461, Line 16. The amount of excess business loss disallowed for Maine tax purposes may be carried forward to subsequent tax years to the extent the carryforward amount has not been previously used to offset Maine taxable income.

**Line 3. Depreciation on qualified improvement property (QIP) - addition modification.** The federal CARES Act changed the depreciation allowable for QIP for federal tax purposes from 39-year class life to 15-year class life (20-year class life for the Alternative Depreciation System) and allows first-year 100% bonus depreciation. Previously, due to nonconformity, the increase in federal depreciation was required to be added back to Maine taxable income. However, **Maine now conforms to the federal depreciation of qualified improvement property (QIP)**. As a result, you must file an amended return to reverse the effect of any amounts previously entered on this line. Also see Form 1041ME, Schedule 1, line 1e and line 2e relative to bonus depreciation for QIP. Note that QIP does not qualify for the Maine Capital Investment Tax Credit for tax year 2018. Revised March 2021.

**Line 4. Total Other Addition Modifications.** Add lines 1 and 2. Enter the sum here and on Form 1041ME, Schedule 1, Line 1g.
