

INSTRUCTIONS for WORKSHEET B

Income Allocation Worksheet for Part-year Residents/Nonresidents/"Safe Harbor" Residents

Part-year resident, nonresident and safe harbor resident individuals **must** complete *Worksheet B* to calculate Maine-source income for the entire taxable year. Married persons filing separate Maine income tax returns must complete separate Worksheets B.

Part-Year Residents: *If you are unable to determine the exact amount of income, other than wages, earned during the period of Maine residency, divide the total income earned by 12 and multiply the result by the number of months you were a resident. This method can be used to allocate interest, dividends, pension or annuity distributions or other income received from intangible sources. Generally, this method cannot be used to determine Maine-source business income, rental income, or capital gains since this income is determined on the basis of where the business activity occurs or the location of the property.*

Column A – Federal Income. Enter the amounts of income as reported on your federal return. Part-year resident, nonresident and safe harbor resident individuals must complete this column.

Column B – Maine Resident Period. Part-year residents, enter the portion from column A received during the period you were a Maine resident. If you were a nonresident of Maine for the entire year or a safe harbor resident, skip columns B and C and complete columns D and E.
