RICHARD W. ROSEN  
COMMISSIONER

MAINE REVENUE SERVICES  
OFFICE OF TAX POLICY

MICHAEL J. ALLEN  
ASSOCIATE COMMISSIONER

October 1, 2015

Senate President Thibodeau  
Speaker of the House Eves  
Members of the 127th Maine Legislature:

Pursuant to 5 M.R.S.A. §13070-J, Maine Revenue Services is required to submit a report to the Legislature identifying the revenue foregone as the result of the Jobs and Investment Tax Credit (“JITC”), the Research Expense Tax Credit (“R&D”), the Seed Capital Investment Tax Credit, the Shipbuilding Facility Credit, the Credit for Maine Fishery Infrastructure Investment, and public funds spent on the Business Equipment Tax Reimbursement (“BETR”) program. Attached are four reports that provide you with this information.

The first attachment shows the number of individual and corporate JITC, R&D, and Seed Capital credits for tax year 2013, as well as the value of those credits. Tax year 2013 is the last year for which we have full information on both corporate and individual filers. Statutes governing the release of confidential taxpayer information prevent us from reporting the names of the corporations or individuals that benefited from these tax credits. No taxpayer took advantage of the Credit for Maine Fishery Infrastructure Investment in tax year 2013.

The second attachment explains the Shipbuilding Facility credit. As required by statute, the report provides information on the level of employment, yearly investment and the cumulative amount of investment. Since the inception of the credit, the level of employment has been such that the annual cost to the state treasury has been at least \$3 million per year.

The third attachment is a list of BETR recipients. For purposes of this report, businesses that filed for reimbursement during the fiscal year ending June 30, 2015 are listed. Recipients filed between August 1, 2014 and December 31, 2014 for eligible property taxes paid during calendar year 2013. For that period the state reimbursed \$33,266,266 to 1,414 companies.

Public Law 2009, chapter 337 (LD 1468) amended the definition of “economic development incentive” in §13070-J to include not only the incentives listed above, but “federal and state statutorily defined programs that receive state funds, dedicated revenue funds and tax expenditures as defined by §1666 whose purposes are to create, attract or retain business entities related to business development in the State.” The additional incentives identified in this new law can be found in the Maine State Tax Expenditure Report 2016 – 2017 prepared for the Joint Standing Committee on Taxation.

If you have any questions on this report, please do not hesitate to contact me.

Sincerely

Michael J. Allen

### **Jobs and Investment Tax Credit**

The Jobs and Investment Tax Credit provides a credit of 10% of the investment of at least \$5,000,000 in personal property that creates at least 100 new jobs within two years of the investment. Retail facilities are excluded from taking the credit. The JITC used in any one year is limited to the lesser of \$500,000 or the tax liability of the taxpayer. Any unused credit may be carried forward for up to six years for a maximum credit claimed of \$3,500,000. For tax years beginning on or after January 1, 2016, the jobs and investment tax credit is repealed except that unused credit amounts may be utilized to the fullest extent allowed by the carryforward provisions for the credit.

### **Research Expense Tax Credit**

The Research Expense Tax Credit provides a credit equal to the sum of 5% of the excess of qualified research expenses over the average research expenses of the prior three years, and 7.5% of the basic research payments to educational institutions and certain research organizations. The credit is limited to 100% of the first \$25,000 of tax liability and 75% of the tax liability over \$25,000. Any unused credit may be carried forward for up to fifteen years.

### **Seed Capital Investment Tax Credit**

The Finance Authority of Maine administers this program. The Authority issues a tax credit certificate to eligible investors. For certificates issued prior to January 1, 2012, the amount of the credit is equal to 40% of the certified investment amount or 60% of the certified investment amount if the eligible Maine business is located in a high unemployment rate area. The timing for claiming the credit is 25% in the taxable year the investment is made and 25% per year must be taken in each of the next three taxable years. Public Law 2011, chapter 454, which applies to investments made on or after January 1, 2012, increases the credit percentage to 60% regardless of the unemployment rate, creates a 50% refundable credit for private venture capital funds, and loosens ownership limitations for eligible investments. For investments made on or after January 1, 2014, the amount of the credit is 50% of the eligible investment.

### **Maine Fishery Infrastructure Tax Credit**

Taxpayers are eligible for a tax credit totaling 50% of cash actually invested in or contributed to an eligible public fishery infrastructure project in any calendar year. Eligible projects must be certified by the Department of Inland Fisheries and Wildlife, which is required to adopt rules for determination of eligibility. Tax certificates may be issued for up to \$5,000,000 per project. Credits must be taken in increments of 25% over 4 years, are nonrefundable, and may not exceed 50% of the total tax imposed on the investor for the taxable year before application of the credit. Unused credits may be carried forward for up to 15 years.

### **Business Property Tax Reimbursement**

The BETR program provides for a reimbursement of property taxes paid on qualified tangible, personal, depreciable property held for business use, and first placed into service in Maine after April 1, 1995. Public utilities, cable television companies, or providers of radio paging, mobile communications, satellite

direct TV, or television distributions services are ineligible for BETR reimbursement. In addition, office furniture, lamps and lighting fixtures, buildings, and land are excluded. Reimbursement of 100% of taxes paid is limited to 12 years. After 12 years, the reimbursement percentage declines until reaching 50% in year 18. The 50% reimbursement rate remains in effect for the remaining life of the property. Taxpayers using the High Technology Tax Credit on reimbursable property are not eligible for BETR on that property, and lose that year of BETR eligibility when either one of those credits are taken. The BETR reimbursement was 90% of eligible taxes in FY06, FY10, FY11 and FY14. The BETR reimbursement is 80% of eligible taxes in FY15. Property located in retail sales facilities exceeding 100,000 square feet and first placed into service after April 1, 2006 is ineligible for BETR. Property placed in service in Maine that is first subject to property tax on or after April 1, 2008 is eligible for the Business Equipment Tax Exemption ("BETE") program. The BETE program exempts all eligible non-retail equipment from property tax. Retail property remains eligible for BETR reimbursement.

**Attachment #2**  
**MAINE'S SHIPBUILDING FACILITY CREDIT THROUGH 2014**  
 How the Program Works

A credit against withholding taxes otherwise due is allowed for up to \$3,500,000 each year for as many as 20 years if an employer:

- 1) Owns, operates or proposes to build a shipbuilding facility in Maine;
- 2) Proposes to make at least a \$200,000,000 investment in a shipbuilding facility in Maine;
- 3) Employs at least 3,500 full-time Maine employees covered by health insurance and a retirement plan; and
- 4) Does not qualify for the Maine Employment Tax Increment Financing program (36 MRSA § 6751) at the time of application for the shipbuilding facility credit.

The Commissioner of Economic and Community Development must certify the applicant as eligible.

The base amount of the yearly credit is \$3,000,000, with a bonus of up to \$500,000 for employee levels above the threshold amount of 5,000. Until January 1, 2003, no credit was allowed if the employment level dropped below 5,000. After that date, no credit is allowed if the employment level drops below 3,500, with a reduced credit available if employment level is between 3,500 and 5,000.

The cumulative credit amount may not exceed \$60,000,000. No credit is allowed after the year in which a qualified applicant has launched its 30<sup>th</sup> qualified ship. A qualified ship is one that is launched after 1998 and was constructed at the facility in which the qualified \$200,000,000 investment is made. The credit ends December 31, 2018.
